Create the HTML Email Template Structure and Header In our design we can see that the email is divided into three logical sections, so we'll create a row for each. Let's duplicate the single row we already made so that we have three in total.

Build an HTML Email Template From Scratch
A plain-text email is just that, plain text. An HTML email is just HTML. Most emails you send or receive are MIME (Multipurpose Internet Mail Extensions) multi-part emails (not to be confused with MIME type). This standard combines both plain text and HTML, leaving it up to the recipient to decide which to render.
