~~To Repair/Maintain Your
Motorcycle~~

The 900 Monster's extra
kilos do give it a slightly
more reassuring feel, and
paying the price of
marginally reduced agility
is more than made up for by
this. But the big gains, in
not just speed but
enjoyment, come from the
extra power of the motor. An
80% boost in power is,
unsurprisingly, easy to
detect as soon as the
throttle is twisted.

with a two-valve engine needs to be serviced every 6,000 miles (or 10,000km I guess). A newer one only needs service every 18,600 miles (30,000km), but it's a more involved job because there are more valves, and if you're special and have a V4, more cylinders.
