## Music Theory Decoded Strictly Numbers

The numbered musical notation, is a musical notation system widely used in music publications in China. It dates back to the system designed by Pierre Galin, known as Galin-Paris-Chev  system. It is comparable to the Gongche notation from the Tang Dynasty. It is also known as Ziffernsystem, meaning "number system" or "cipher system" in German. Some other unrelated musical notation systems are also called cipher notations. The same system or very similar systems are used to some extent in ...

## Numbered musical notation - Wikipedia

We use the numbers 1 - 7 to talk about the musical scale, not ABC or Do-Re-Mi. By numbering the scale tones we can teach students to play, read, improvise, compose and analyze music. The numbers help to

Structures. Composers use structure to shape and give balance to their music. Like the other musical elements, certain musical structures were used in different musical periods.

## Structures - Structure - Edexcel - GCSE Music Revision ...

Music theory is the study of the practices and possibilities of music. The Oxford Companion to Music describes three interrelated uses of the term "music theory". The first is the "rudiments", that are needed to understand music notation (key signatures, time signatures, and rhythmic notation); the second is learning scholars views on music from antiquity to

## Mr. Natural music school basic guitar lesson overview [mrnatural.net](http://mrnatural.net)

If you remember, the notes of C major are C, D, E, F, G, A, B. But the notes in the minor scale are C, D, Eb, F, G, Ab, Bb, C. (the 3rd, 6th and 7th degrees are [flattened] from the major version [this works across ALL major/minor scales]) So in C Minor [ C = 1, D = 2, Eb = 3, F = 4, G = 5, Ab = 6, Bb = 7, C = 8.
