Methodology refers to the overarching strategy and rationale of your research project.It involves studying the methods used in your field and the theories or principles behind them, in order to develop an approach that matches your objectives.. Methods are the specific tools and procedures you use to collect and analyze data (for example, experiments, surveys, and statistical tests).

How to Write a Research Methodology in Four Steps

According to Gauri and Gronhaug, (2005, pp. 56), "The research design is the overall plan for relating the conceptual research problem to relevant and practicable empirical research." It is an important method used by the authors, in order to answer research questions (Saunders et al. 2007) and any design under the control of researcher ...
