Spurs do most em work, many spur tasks take a subjective hour, and spurs interact more with each other. Spurs can ensure privacy in counseling, auditing, and law enforcement. By putting two spur copies into a “safe” from which only one bit is returned, one em can show another “you’d agree with me if I could tell you what I know.”

The Age of Em, A Book

This book paints a detailed picture of this new era. — The Age of Em. The book's main scenario proposes that in about a hundred years from now, human brains will be scanned at "fine enough spatial and chemical resolution," and combined with rough models of signal-processing functions of brain cells, "to create a cell-by-cell dynamically executable model of the full brain in artificial hardware, a model whose signal input-output behavior is usefully close to that of the original brain."

The Age of Em - Wikipedia

This sort of thing happens quite a lot in science fiction, but The Age of Em is a fanatically serious attempt, by an economist and scholar at Oxford’s Future of Humanity Institute, to use economic...
