Veterinary

are created by passage  
of viruses or bacteria in  
an unnatural host or cell.

After multiple passages  
of the virus or bacterial  
strain in various media,  
the strain is

administered to the  
natural host in the hope  
that random mutation  
has delivered a non-  
virulent and replicative  
infectious agent

(Meeusen et al., 2007).
